Smart Contract Audit Proposal

For: GMX-Solana

From: Bailsec LLC

Please be aware that we have excluded contract specifics and the addresses of both our companies from this proposal, as it is intended to serve as an initial offer document.

We appreciate your consideration in choosing us to collaborate with you on safeguarding your project. Enclosed herein is our proposal.

The evaluation process will incorporate a blend of expert manual scrutiny, static analysis, and various techniques.

The Bailsec team will perform multiple iterative assessments on the specified contracts while actively collaborating with the project team to address any identified issues. **However, it is crucial to emphasize the importance of conducting thorough testing on your contracts during the resolution phase and prior to deployment on the mainnet.**
